Environment Policy for Shoolini University

I. Preamble

Shoolini University is committed to United Nations Sustainable Development Goals (SDGs) through its innovative Environment Policy which makes Shoolini University a sustainable, energy efficient and environment friendly green campus. This Environment Policy applies to all the operation and activities of the University including building construction and renovation, transportation, water, waste management and all its operations and activities undertaken by the university.

Shoolini University Environmental Policy is in line with United Nations Sustainable Goal (SDG) No.13 “Take urgent action to combat climate change and its impacts”

II. Policy Goals

- To protect environment in and around Shoolini University
- To develop a systematic waste management mechanism
- To develop rainwater harvesting system for water conservation and recharging
- To provide training and information on energy & environment protection measures
- To create awareness among students faculty, employees and public to engage in initiatives those contribute for environment protection
- To reduce, reuse and plastic in any manner inside the University campus

- To create awareness on single use plastics impact on environment and encourage use of natural alternatives.
- To explore production of energy from waste
- To take measures for the effective utilization of wastewater recycling
- To take measures to protect the forest and environment from forest fires.

III. Applicability

This policy shall apply to all departments/extensions of Shoolini University as well as students, faculty, employees and public who will be encouraged to take initiatives for fulfilment of the policy objectives.

IV. Review

This Environment Policy will be communicated to the students and employees via internal communication channels, Radio Shoolini TV and to all the stakeholders on the institutional website.

The environment policy, objectives and targets will be reviewed from time to time on regular basis by the Centre of Excellence in Energy Science and Technology which is the coordinating agency for updating and effective implementation through different agencies of the University.

V. Remarks

This policy will be reviewed and revised from time to time and updated as and when required.
