THINK
LEARNING

THINK
SUCCESS

We founded Shoolini University with the vision to create a leading institution of learning. In addition, we aspire to provide quality and relevant education to our students at an affordable and subsidized fee structure. Developing a top quality and industry relevant Business School is core to this strategy. I have actively involved in discussions with CEOs of several leading Indian companies around this vision. Our common consensus is that India's current management education beyond the IIMs and other leading institutions is not completely relevant to the Industry. Most students graduating from Indian management schools do not consistently have appropriate knowledge, competencies, communication skills and the attitude to succeed in the corporate world. Shoolini University's School of Business Management believes in imparting industry relevant management education to its students so that an immediate employable pool of managers can be created

We have implemented several innovative programmes such as strategic partnerships with Genpact, alliance with British Council of India, mentorship programmes with India's leading managers, regular guest and visiting faculty from India's best companies, etc. We are trying to build one of India's most innovative, credible, and excellent professionals and I can assure you that we will leave no stone unturned to meet this goal. I warmly welcome you to experience our campus and meet our young professionals, who, we believe, can be efficient and effective change agents for your organization and the society.

KULDEEP ROJHE Director

Doctoral in consumer behavior with specialization in customer complaining behavior, Prof. Rojhe has a blend of experience in the industry & academia. In his 18 years of experience, he has coordinated to develop the curriculum & skill development programs at the management school. Additionally, he has performed various roles in education management, as well as led industry-academia tie-ups, international collaborations & internship programs. Key skills include higher education management & development. Keen interests in education management, research & consultancy.

THINK
LEARNING

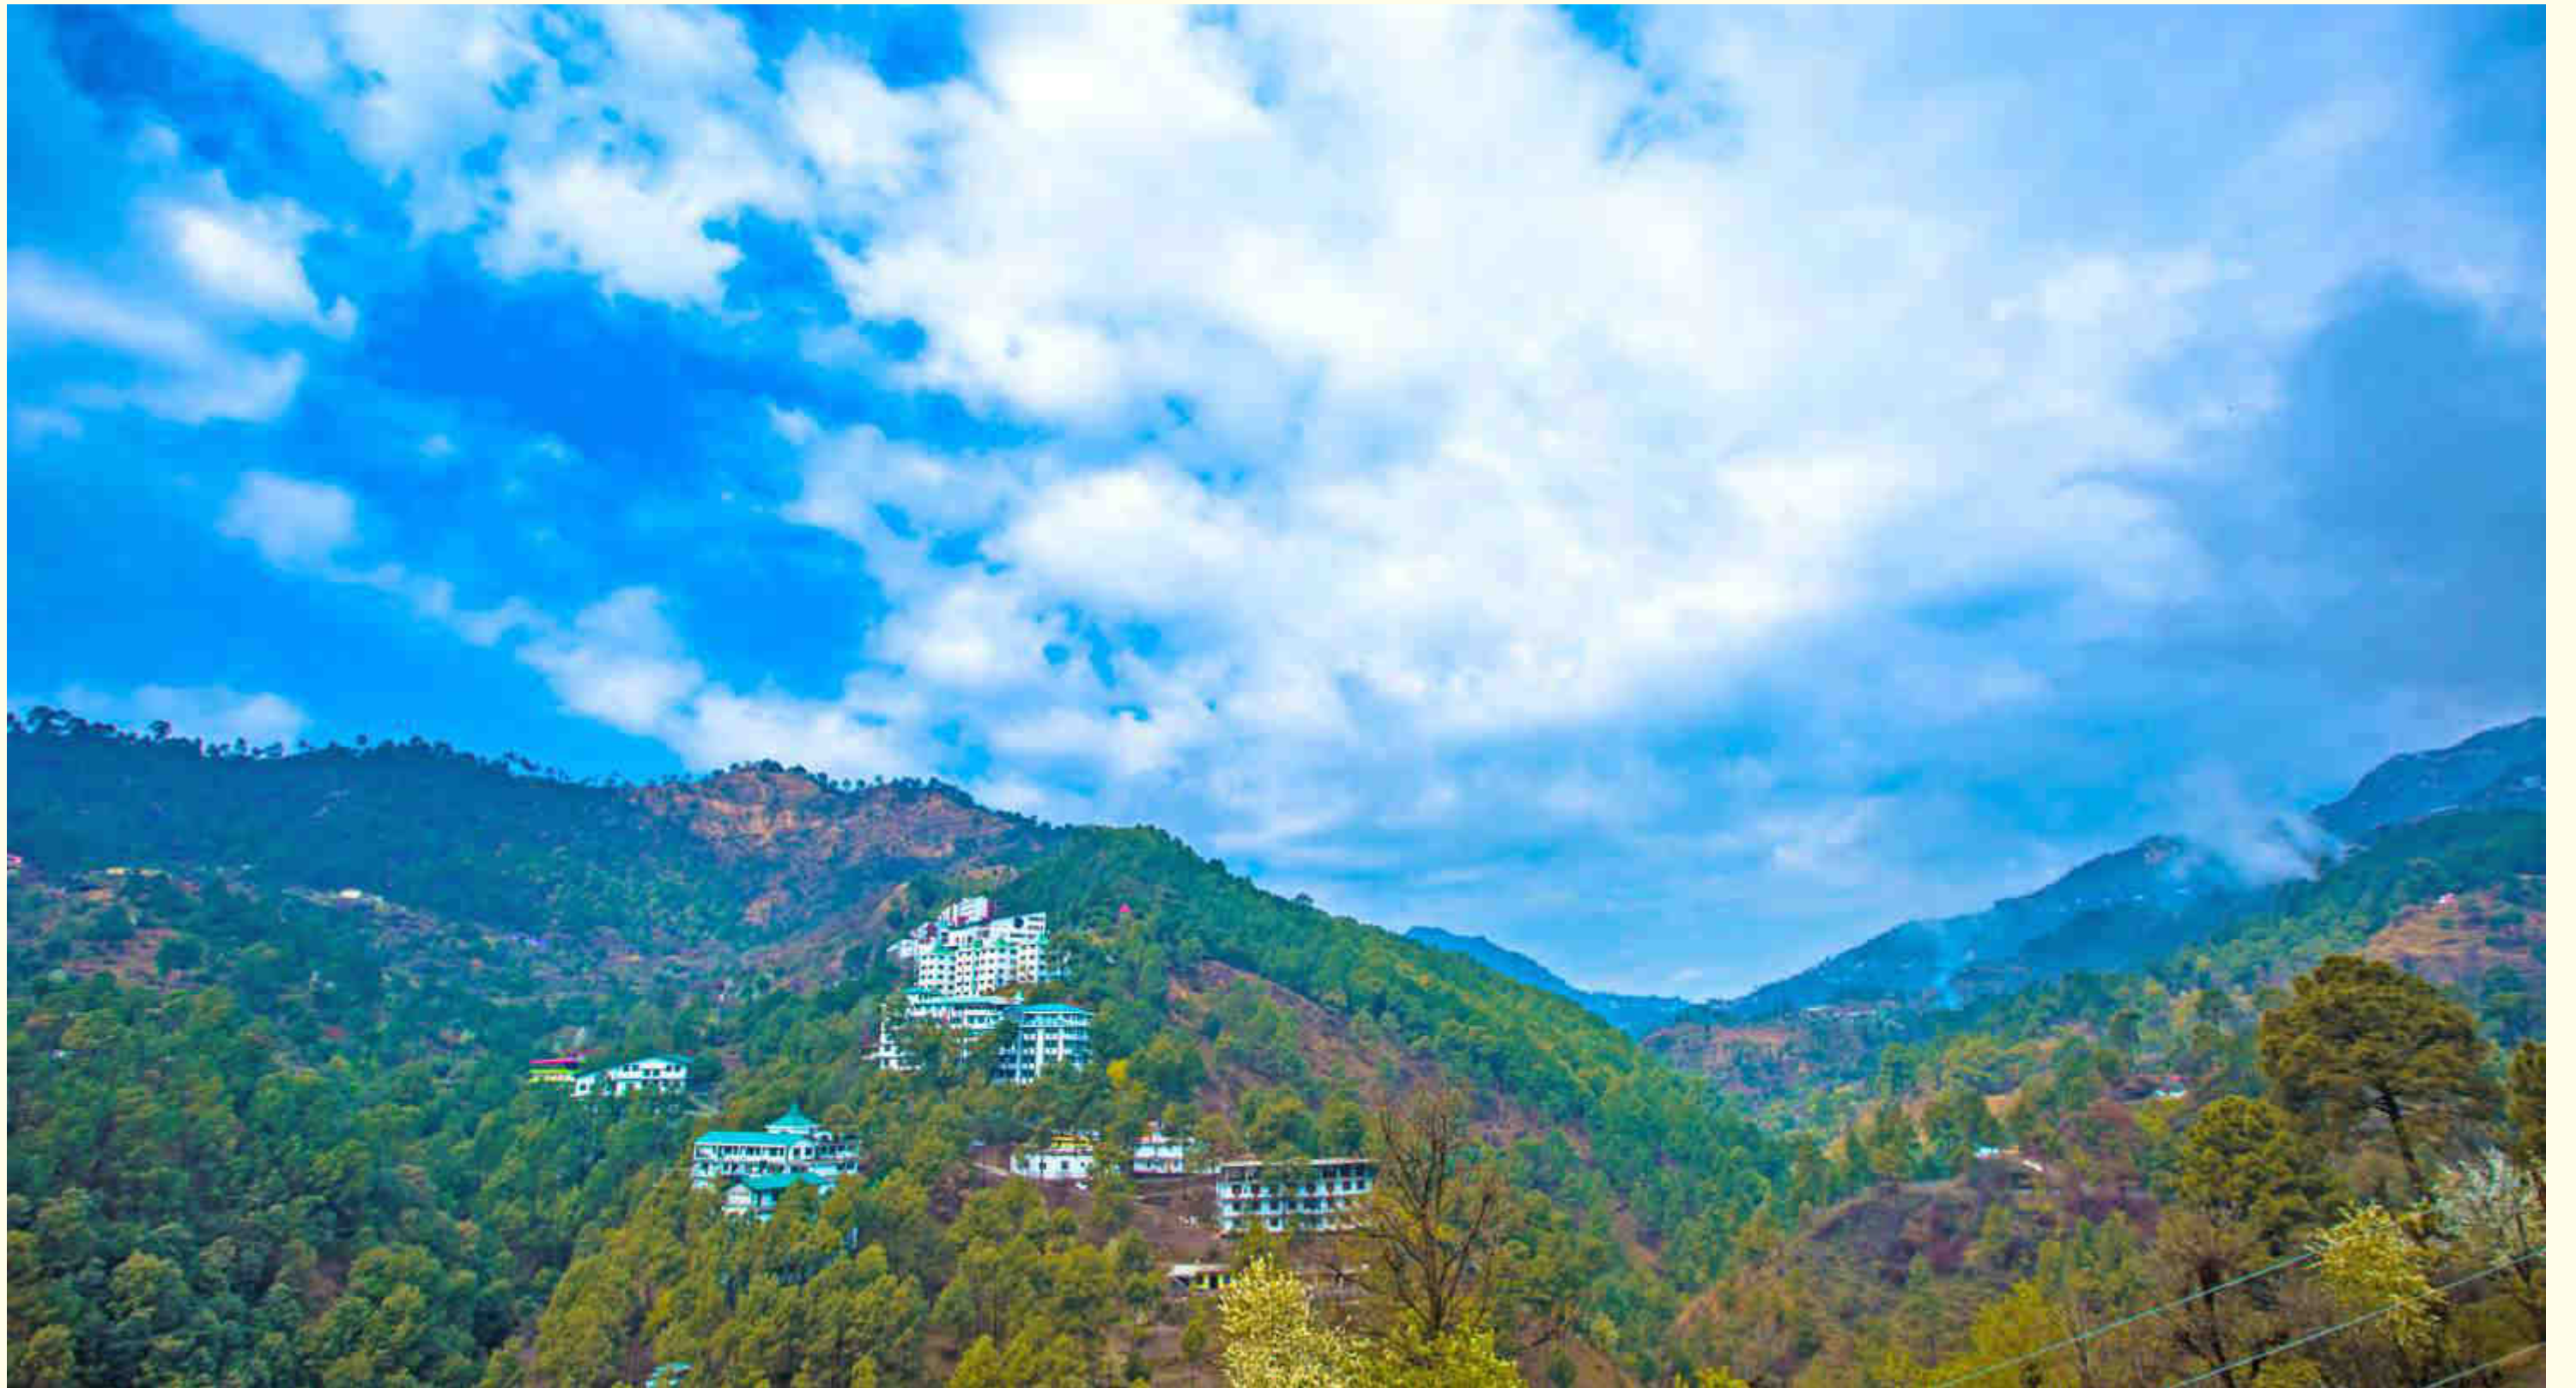

THINK
SUCCESS

The world has been ever reshaping itself and this dynamism has to be embraced by business schools. At Shoolini, we have always worked closely with leading Indian and global corporates to have deep understanding of their present and future requirements in terms of knowledge, skills, and abilities.

May it be designing of the curriculum or additional skills; our approach has been Nation and Industry first. The quadmester system of learning at Shoolini MBA is meticulously designed to simulate the fast-track real-world environment. The blended model of learning from top experts from industry and academia aims at providing hands on experience to the students, along with focus on leadership development in theme based seven SPRINTs.

Our students deeply benefit from our International collaborations, corporate mentorship, AI technology and diversity. We ensure that our processes are rigorous in selection, learning, evaluation, and placements so that each Shoolini MBA student imbibes the values of ethics, integrity, perseverance, and leadership.

The legacy set by our alumni is an indication that we are on the right track and I Thank all our corporate partners for their continuous support that they have extended over these years. Our Chancellor has established the vision of being among the Top 200 Global universities and this is what guides us towards excellence in everything that we do.

UP SKILLING THROUGH SPRINT

Shoolini University 'SPRINT' is inspired by Stanford's mini - MBA programme - designed to upgrade skills & capabilities of students. Consequent to successful implementation in the School of Business Management, SPRINT programme has been extended to cover the Faculties of Engineering, Biotechnology, Pharmaceuticals and Sciences. SPRINT Involves exhaustive subject matter sessions combined with technical and soft skills based on highly Interactive approach

HIGH ENGAGEMENT DELIVERY MODEL

- Focus on replacing lecture based approach with case study methodology to drive participation.
- Mentors assigned to teams for granular and continuous support and monitoring of individual's performance
- Focus on making all discourses interactive and highly participative

TEAM BASED PROGRAMME

- Division into 6-8 member teams for the entire period to ensure learning from group dynamics
- Assignment of team captains and mentors

THINK
LEARNING

THINK
SUCCESS

- Frequent team building exercises /activities to help understand the importance of teams and maintain team excitement
- Team-wise performance measurement
